Muhammad Sheraz

Senior Flutter Developer

+923461503735 || sherazahmad720@gmail.com

Experienced Application Developer with 3+ years of experience and a proven track record in the software development field. As the Chief Technology Officer (CTO) at my company, I have led cross-platform development projects using Flutter and Dart, while also specializing in UI/UX design. I have a strong passion for backend development and possess extensive knowledge in creating reliable and scalable backend solutions. With a focus on delivering high-quality applications, I have played a critical role in the successful completion of various projects throughout my career.

Work Experience

Senior Flutter Developer • Techorra, Islamabad

- Served as the Chief Technology Officer (CTO) overseeing software development and project management.
- Ensured code quality through code reviews and implementing best practices.
